Battery Installation - See Figure 1

- 3 AAA**
- Alkaline (LR03)
 - Lithium (L92)
 - Rechargeable NiCad or NiMH

Princeton Tec cares about the environment and recommends recycling batteries. For more information about battery recycling, please go to www.batteryrecycling.com.

Observe proper battery polarity. Improper installation of the batteries will damage the light and void the warranty.

WARNING

- Never mix fresh and used batteries.
- Never mix different battery brands or chemistry types.
- Always remove drained batteries immediately.
- Remove batteries during long periods of storage.

NOTE: Lithium batteries offer extended constant brightness time, extreme cold weather performance, and lighter weight. Rechargeable NiCad or NiMH batteries may result in reduced brightness due to lower nominal voltage.

The Vizz battery compartment has a waterproof seal. It is important to keep this seal free from dirt and away from harsh chemicals in order to preserve waterproof integrity. Inspect the seal every time batteries are changed. If dirt is present, wipe gently with a damp cotton swab and mild soap until dirt is removed.

Switch Operation - See Figure 2

From off:
One press - Red Ultrabright LEDs
Two presses - Maxbright LED
Three Presses - White Ultrabright LEDs
Five second hold - Lockout

On in any mode:
Hold - Dimming
Press after more than two seconds - Off
 A single press more than two seconds after the previous button press will turn light off.

From off state, 5 second hold will lock light to prevent accidental turn on and resulting battery drain. The Indicator LED (located inside the power button) will blink three times to confirm lock. 5 Second hold from the locked state will unlock the light and the indicator LED will flash to confirm unlock. Removal and replacement of batteries will also reset Vizz to unlocked state.

Troubleshooting

- If the Vizz fails to light:
- Check the batteries for proper installation.
 - Replace batteries if proper installation is confirmed.

Figure 2 - Switch Operation	Modes de fonctionnement	Schalterbetätigung
SINGLE PRESS RED ULTRABRIGHT LEDs		HOLD FROM ON DIMMABLE ALL MODES
DOUBLE PRESS MAXBRIGHT LED		HOLD FROM OFF (5 SECONDS) LOCK OR UNLOCK
TRIPLE PRESS WHITE ULTRABRIGHT LEDs		SINGLE PRESS TURNS LIGHT OFF

- Princeton Tec calculates total burn time as the time it takes for the light source to produce a minimum of 0.25 lux at 2 meters. 0.25 lux is about the equivalent of a full moon on a clear night.
- Princeton Tec berechnet die Gesamtbrenndauer bezogen auf eine von der Stirnlampe erzeugte minimale Beleuchtungsstärke von 0,25 Lux in 2 Meter Abstand. 0,25 Lux entsprechen in etwa der Beleuchtungsstärke des Vollmonds in einer klaren Nacht.
- Princeton Tec définit la durée totale d'éclairage comme le temps nécessaire à la source lumineuse pour produire un minimum de 0,25 lux à 2 mètres. 0,25 lux équivaut à peu près à la luminosité d'une pleine lune dans un ciel nocturne dégagé.

- Check circuit board for water (the seal may have been compromised by improper rear cover installation or dirty seal). The light will resume normal operation once the water is shaken or blown out and the light is left open until completely dry. If the light has been contaminated with salt water, flush the unit with fresh water and dry as described above.

Princeton Tec reserves the right to change product specifications without notice.

FOR CALIFORNIA RESIDENTS:
WARNING: This product contains Bisphenol A (BpA) a chemical known to the State of California to cause birth defects or other reproductive harm.

Return Policy

If your light fails to operate, follow these simple steps:

1. Check batteries. Replace if necessary.
2. To send your light in for repair or replacement, first contact Princeton Tec customer service on **1-800-257-9080** to request an RMA number. Please have your light model, date of purchase and a brief description of the fault you are experiencing. No warranty repairs will be accepted without an RMA number.
3. Return the light without batteries to: **Princeton Tec, PO Box 8057 Trenton NJ 08650**. Postage due and freight collect items will not be accepted.
4. Upon receipt your light will be processed in about two weeks. Please allow additional time for return transportation from NJ.

USA Lifetime Warranty - International 10-Year Warranty

Due to International regulations, Princeton Tec's lifetime warranty can only be offered to customers in the USA. Princeton Tec offers a 10-year warranty to our customers outside the USA. **FULL WARRANTY** - Princeton Tec warrants this product to be free from defects in workmanship and materials under normal use for as long as you own this product. This warranty covers all of the component parts of the product except batteries. This warranty does not cover deterioration due to normal wear or damage due to misuse, alteration, negligence, accidents, or unauthorized repair. Princeton Tec will repair or replace parts which are defective in workmanship or materials. Your authorized Princeton Tec Dealer and Princeton Tec are the only facilities authorized to repair the product. After (3) unsuccessful attempts to repair the product, you have the right to elect replacement of the product or a refund of the purchase price less allowance for use of the product. **NO INCIDENTAL OR CONSEQUENTIAL DAMAGES ARE INCLUDED IN THIS WARRANTY.** (Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.) This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
