

SL-SIDESADDLE®

UNIVERSAL FIT HAT, HARD HAT AND HELMET LIGHT

Available Colors:

The SL-SideSaddle is a compact, lightweight lighting solution designed to mount securely on hats, hard hats and helmets - without interfering with visors, hearing protection, or other gear. Its powerful front LEDs offer spot, flood, and combined beam modes, while a blue safety taillight LED ensures visibility from behind.

A push-button switch with mode memory recalls your last setting, and the programmable taillight adds customizable safety. Built for versatility and all-night comfort, the SL-SideSaddle keeps your hands free and your path well-lit.
